# a BROADCOM 

PCN: V19-002-476103-OA

## Product Change Notice

Issue Date: 05-Feb-2019

## Change Type:

1. To change date code marking location
2. To change sleeve material from brass to aluminum 6061 which is environment friendly

## Parts Affected:

- All HEDS-55XX/56XX, HEDM-55XX/56XX and HEDL-55XX/56XX series
- All QEDS-55XX/56XX and QEDL-55XX/56XX
- All AEDM-5X1X and AEDL-5X1X series.
- All HEDC-55XX/56XX series
- All AEDC-55XX/56xx and AEDT-5XXX series

## Description and Extent of Change:

1. Change marking location for date code from bottom side to upper side at device location.

| Marking | HEDS-55XX/56XX <br> HEDM-55XX/56XX <br> HEDL-55XX, HEDL-56XX | AEDM-5X1X, AEDL-5X1X <br> HEDC-55XX/56XX |
| :--- | :---: | :---: | :---: |
| AEDC-5XXX and AEDT-5XXX |  |  |

2. Alignment sleeve material change from Brass to Aluminum 6061

i. Based on the verification ( 25 x shaft insertion) no sleeve stuck on shaft.
ii. It is proven that the aluminum 6061 sleeve can be used without any issue at end customer.
iii. No change per tray shipment, one alignment sleeve will be provided

## Reasons for Change:

1. Change date code marking location
i. Current marking process needs $2 x$ marking for device part number \& date code.
ii. With change date code location, the device \& date code will be marking at the same time.
iii. Increase marking efficiency
2. Change sleeve material from brass to aluminum 6061
i. Aluminum 6061 is environment friendly compare to brass

## Effect of Change on Fit, Form, Function, Quality, or Reliability:

There is no impact to the product form, fit, function, quality or reliability at end customer by change the date code and sleeve material.

## Effective Date of Change:

Product shipment using this change will commence on or around May 2019.
