April 20, 2017

Product/Process Change Notification No: 1613L

Change Classification: Major; Material; Transition

## Subject: Amendment to Continue Supply of VSC3340XJJ-01 and VSC3340XJJ-31

#### **Description of Change**

This notification is to rescind the previously issued PCN1613K which specified the discontinuance of VSC3340XJJ-01 and VSC3340XJJ-31 devices. VSC3340XJJ-01 and VSC3340XJJ-31 devices will continue to be active and available until approximately year 2020. A separate change notification will be distributed at a later date for their discontinuance and the transition to Pb-free bump devices.

## **Reason for Change**

Microsemi is rescinding PCN1613K to accommodate the extension of RoHS exemption 15 to 2021.

## **Application Impact**

There is no anticipated impact to applications.

# **Method of Identifying Changed Product**

Not applicable

#### **Products Affected by this Change**

VSC3340XJJ-01, VSC3340XJJ-31

#### **Production Shipment Schedule**

VSC3340XJJ-01 and VSC3340XJJ-31 devices will remain active and continue to ship.

#### **Qualification Data**

Not applicable.

# **Samples Availability**

Not applicable.

#### **Contact Information**

If you have further questions related to this topic, contact Microsemi's Technical Support at: ENT.quality@microsemi.com

#### Regards,

Microsemi Corporation

Any projected dates in this PCN are based on the most current product information at the time this PCN is being issued, but they may change due to unforeseen circumstances. For the latest schedule and any other information, please contact your local Microsemi Sales Office, the factory contact shown above, or your local distributor.

This Product/Process Change Notification is confidential and proprietary information of Microsemi and is intended only for distribution by Microsemi to its customers, for customers' use only. It must not be copied or provided to any third party without Microsemi's prior written consent.
