

PRODUCT CHANGE / END-OF-LIFE NOTIFICATION

PCN Number : 20160131-E01
Effective Date : January 31st 2016
Severity : Low

Products affected by this change:

| WICED Development Kits | |
|------------------------|------------|
| Seabass | AMW006-E01 |
| Snapper | AMW004-E01 |
| | |
| | |
| | |

Description of change

Production of the Zentri / ACKme branded Development tools (Seabass/Snapper) for Broadcom's WICED will be discontinued. Zentri's ATG002 (Piranha programmer) offers similar capability and supports both WICED and ZentriOS.

Reason for Change

ZentriOS allows for quicker and more efficient programming. Given the growing customer trend to use ZentriOS, Zentri opted to consolidate development platforms to reduce impact on support and Zentri has ceased production of the Seabass/Snapper WICED Development tools but will continue to distribute while stocks last.

Impact (Form, Fit, Function, Quality and/or Reliability)

There is no action required by a customer.

Product Identification

Existing AMW004-E01

Existing AMW006-E01

Replacement ATG002 (Piranha)

For use with AMW106-E03 and AMW004-E03

Final dates for AMW004-E01 product and AMW006-E01

Date of last accepted order(s): WHILE STOCKS LAST

Date of last scheduled shipment(s): WHILE STOCKS LAST
